

**Your Next Step  
to a Fully Integrated  
Access Control  
System!**

**Angelo Gentili**  
Head of Business Development,  
EMEA Region, PartnerNET

With the ever **changing technology in business security**, the uses and possibilities are endless. Having a **fully Integrated Access Control System** gives you **flexibility** and **Saves** you and your business **Time and Money!**

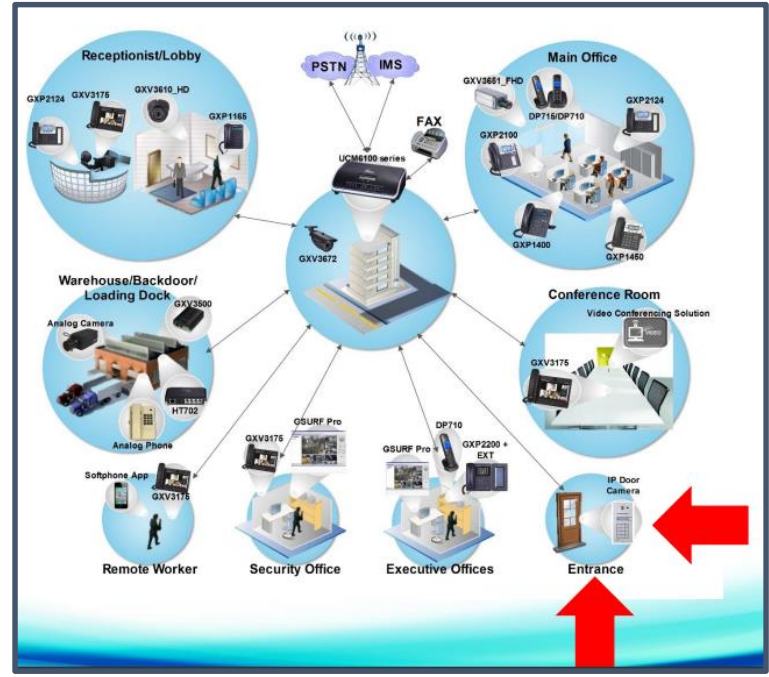

# Complete line of physical security solutions that will **save you time and money!**

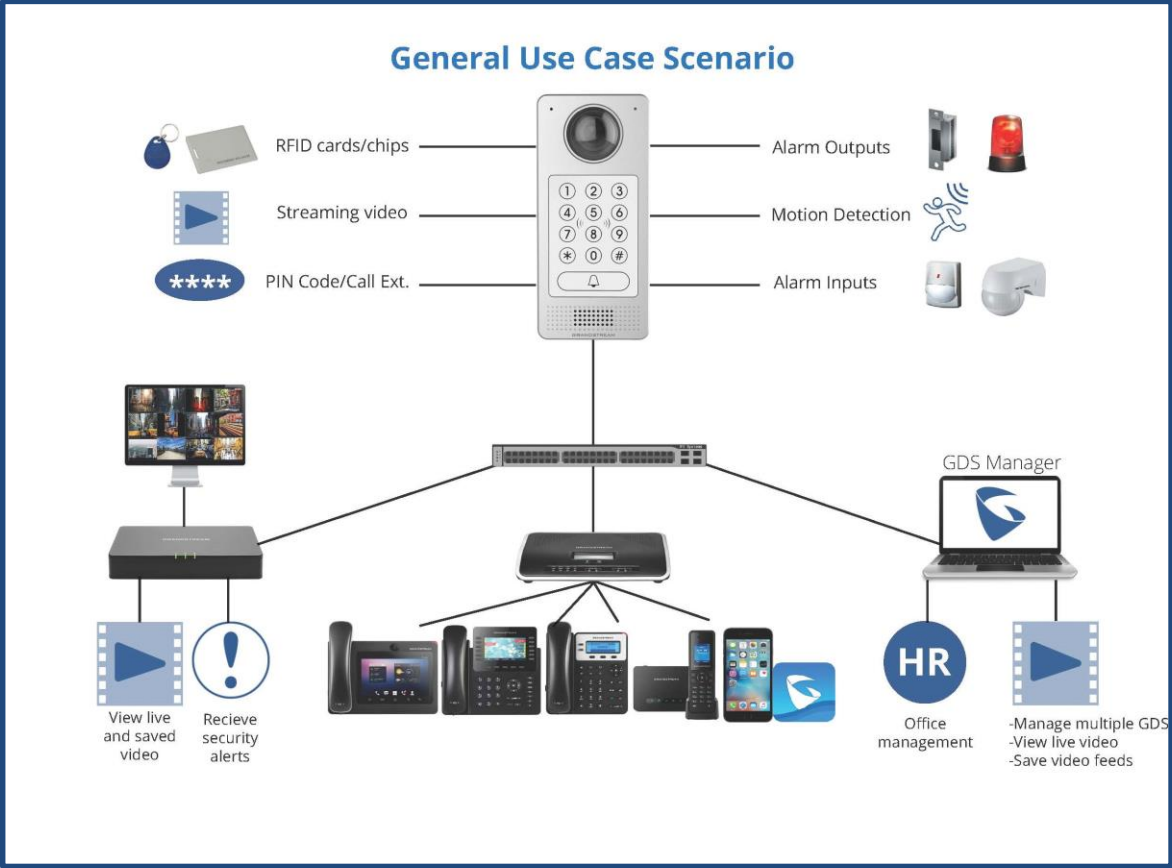

- Access Controls / Video Door Systems
  - IP Cameras
  - Network Video Recorders
  - Access Points
  - IP Video encoders/decoders
- ✓ **Free** Video Management Software

Our range of products provides **everything needed** for a **fully integrated access control solution** and can proactively **alert users** of security events in addition to **live monitoring and recording** of all video surveillance feeds.

# Easily Integrate a Door Phone System with your Business Communications Solutions!

- ✓ All our devices - IP Door Phones and Cameras are **SIP-based**
- ✓ All devices can be **easily setup, customized** and **managed** from **one central location**
- ✓ **Add functionality** to devices by combining them onto the same network
- ✓ Even add/include analog phones and analog cameras
- ✓ A **true Unified Communications solution** offering voice, video, data and mobility features

Our **Video Door Systems** can **Track, Manage and Record** access to any physical building while also offer powerful integration with other solutions and other security products!

Powerful video resolutions up to 1080p

Built-in RFID chip reader for keyless entry

SIP video streaming to NVRs, video intercom stations, IP phones, or smart phones simultaneously

Built with a metal casing to make it weatherproof and vandal resistant

Built-in hemispheric camera allows for 180-degree wall-to-wall coverage

Supports motion detection

Integrated PoE to power the device and provide a network connection

Built-in microphone and speaker offers voice options and intercom functionality

## GDS3710

### HD IP Video Door System

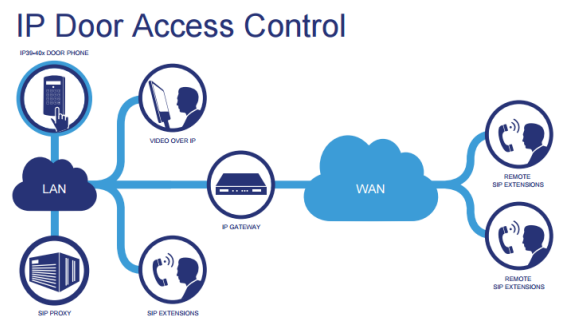

- > **HD Resolution up to 1080p**, 30 frames per second
- > Built-in RFID chip reader for keyless entry
- > **SIP/VoIP** support for streaming of video feeds to multiple smartphones, > sip endpoints and software simultaneously
- > **Hemispheric camera for 180 degree** wall-to-wall coverage
- > supports motion detection
- > Weatherproof, vandal resistant
- > **PoE enabled**
- > built in microphone and speaker for intercom functionality

# User friendly and multi-interface systems!

Meet your security requirements, and create a good balance between **access control** and **freedom of movement**.

Stylish & Modern Design !

Standalone **SIP phones**, which **maximize functionality** of the VoIP network. Integrated into SIP Proxy as extension, IP Door Phone allows **voice** and **video** communication and **door control** in multiple company branches, which are operated within single IP network. An **integrated IP video camera** provides real-time video streaming.

## NISTA

### IP39-40x series

#### Keypad Door Access Control

- > Designed as SIP proxy extension
- > Multiple Doors control
- > High Quality Audio
- > HD video
- > Door Opening from local & remote extensions
- > Web-based programming interface
- > Piezo and Touch Keypad
- > Secure wall installation
- > Stylish design
- > SRTP; Media Encryption

## Capture All Activity in HD quality!

Our **indoor and outdoor** HD IP cameras have a **variety of shapes and casings** in order to support **all business and residential applications**.

Our IP cameras feature **full HD** resolution, **easy setup** and **management** and can **proactively notify users** of security events through **automatic outbound voice and video calls** in addition to **email screenshots!**

## GXV3672 series

Infrared, Weatherproof.

Equipped with IR and a variable focus lens, allowing users to **customize** the device best to fit your **monitoring** needs.

IP66 compliant weatherproof metal casing

Smart IR to maximize white balance/exposure (IR LEDs can be turned off)

Includes built-in Power over Ethernet (PoE)

1.2 megapixel and 720p (versions ending in \_HD)  
3.1 megapixel, 1080p (versions ending in \_FHD)

SIP Motion Detection with up to 16 motion detection target areas

Supports alert notifications via outbound voice or video call and email screenshot

SIP/VoIP support for 2-way audio and video streaming to audio, video and mobile phones

## GXV3674 HD/FHD

Vari-Focal, Infrared, Weatherproof.

Monitor and secure important **low-light** outdoor environments. **3.6mm lens** for monitoring **wide angles** at close proximity settings.

Features a variable focal lens that can be adjusted from 2.8-12mm

Supports Motion Detection with up to 16 motion detection target areas

Supports alert notifications via outbound voice or video call and email screenshot

SIP/VoIP support for 2-way audio and video streaming to audio, video and mobile phones

IP66 compliant weatherproof metal casing

Smart IR to maximize white balance/exposure (IR LEDs can be turned off)

Includes built-in Power over Ethernet (PoE)

1.2 megapixel and 720p (GXV3764\_VF\_HD)  
3.1 megapixel, 1080p (GXV3674\_VF\_FHD)

## GXV3672 series

720p/1080p Outdoor Tube Camera

- > GXV3672\_36: 1.2MP, 3.6mm lens
- > GXV3672\_FHD: 3.1M camera, 8mm lens
- > H.264 ONVIF compliant infrared
- > Day/night mode with light sensor and IR\_CUT filter

## GXV3674 HD/FHD

Vari-Focal, Infrared, Weatherproof

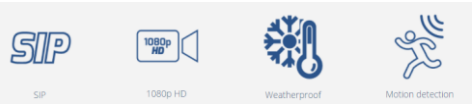

- > 2.8mm-12mm Vari-focal lens, 1.2MP
- > H.264 ONVIF compliant infrared 720p HD, 1080p FHD
- > IP66 weatherproof

GSurf Pro V2  
+ free video management software (VMS)

## GXV3662

Outdoor weatherproof, tamper proof and IP dome vandal proof!

Variable focal lens that can be manually adjusted from 3.3mm to 12mm. Monitoring an area in the distance, medium distance or areas in close-proximity to the camera.

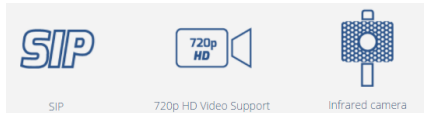

## GXV3610FHD

1080p Outdoor Dome Camera

Weatherproof, infrared IP camera that enables users to monitor and secure important low-light outdoor environments.

Full HD  
1080

## GXV3662

Outdoor weatherproof, tamper proof and IP dome vandal proof!

- > GXV3662\_HD: 1.2 megapixel Progressive Scan CMOS image sensor > 720p resolution
- > GXV3662\_FHD: 3.1 megapixel Progressive Scan CMOS image sensor > 1080p resolution
- > Variable focal lens can be adjusted

## GXV3610FHD

1080p Outdoor Dome Camera

- > IP66 vandal & weather resistant > H.264 ONVIF compliant > GXV3662\_HD: 1.2MP, 3.3-12mm lens > GXV3662\_FHD: 3.1MP, 3.3-12mm lens > Integrated PoE

GSurf Pro V2  
+ free video management software (VMS)

## GXV3611IR\_HD

### Indoor Infrared Fixed Dome HD IP Camera

Advanced surveillance solutions that not only **monitor** and **secure** a location but have an **audio conversation** gives users **unprecedented control** over their facilities!

 Alerts	 Encryption security	 Wide angle
 SIP	 720p HD Video Support	 Infrared camera
 Infrared camera	 Motion detection	 Power Over Ethernet
		 SD Card

An **indoor** camera with **infrared** capabilities, inbuilt smoke detector, and local SD Card is perfect for indoor areas where **low light** may be a concern and **2-way communications** is a must. Data Rooms, Banks, retail stores and residential entry points all are potential deployments.

## GXV3611IR\_HD

### Indoor Infrared Fixed Dome HD IP Camera

- > Integrated IR-CUT for day/night mode
- > Integrated microphone and speaker
- > H.264 ONVIF compliant HD (720p)
- > 2MP, 2.8mm lens
- > Integrated PoE
- > Supports Time-lapse photography

## Capture All Activity in HD quality!

- Register SIP cameras to any network / IP PBX
- View camera's **live feed** from any device that has an internet connection
- **2-way video/audio calls** to/from cameras thanks to SIP/VoIP support
- Set cameras to **call video device** (IP Video phones) when alert/alarm is triggered
- **Cameras can send an email or screen capture**
- **Motion Detection on all cameras.** ONVIF-compliance will allow motion detection on our camera to interact with any ONVIF VMS, NVR, etc.
- **Easily setup** in 3 steps using a camera's Web UI
- **Up to 16 target areas per camera**
- GXV3610 series, GXV3611IR\_HD feature built-in microphone and speaker

1. Receive Video Calls from Video Cameras
2. Make Video Calls to Video Cameras

## Stay Secure with Recording and Live Monitoring

Easy-to-use NVRs offer **auto-discovery**, motion **detection** and can be **integrated** with third party security and alarm devices!

Our GVR series of Network Video Recorders (NVRs) offers a dedicated, **central point for recording** all video surveillance feeds, and offers the **ability** to **view live feeds** through the device or through its web user interface.

**GSurf Pro**, our **free video management** system, offers **Windows software** to **view and record all feeds**.

In addition, **all of our security devices** (door systems, cameras and NVRs) offer **web interfaces** to **view live feeds** and **configure recordings**.

Offer a **dedicated video recording and live monitoring** solution for **small and medium businesses, retail locations, warehouses and residential users.**

### GVR3550

#### Network Video Recorder

- > Up to 24 channels 720p HD, or 16 channels of 1080p FHD video/audio real-time recording
- > Up to 4 SATA 3.5" internal hard drives with maximum 16TB storage and RAID 0 or RAID 1 configurations
- > 1 HDMI and 1 VGA output, as well as USB, eSATA and alarm in/out ports
- > Compatible with all Grandstream surveillance devices, as well as all ONVIF compliant IP cameras

### GVR3552

#### Network Video Recorder

- > Up to 8 channels 1080p FHD, or 16 channels of 720p HD video/audio recording
- > Up to two 2.5" internal hard drives with up to 4TB storage
- > HDMI, USB and VGA interfaces
- > Compatible with all Grandstream surveillance products, and all ONVIF compliant IP cameras

# Secure and Powerful Wireless Networks

Our WiFi Access Point make building secure and powerful wifi networks easier and more affordable than ever before.

## Deployment Scenario (1)

### Small to Medium Businesses

- ✓ Many access points that offer the same networks
- ✓ Move throughout the office without having to switch networks or re-login

Our devices are full of **high-end features** but feature **marketing-leading price pints** and allow for **easier setup and management** than ever before. Our **powerful WiFi Access Points** offer **high performance networking, tremendous WiFi coverage range, fast and easy provisioning/management** thanks to a **built-in controller, outstanding network throughput** and **support** for a large number of clients per AP. Our APs can be **paired with 3rd party routers**, as well as **existing WiFi networks**.

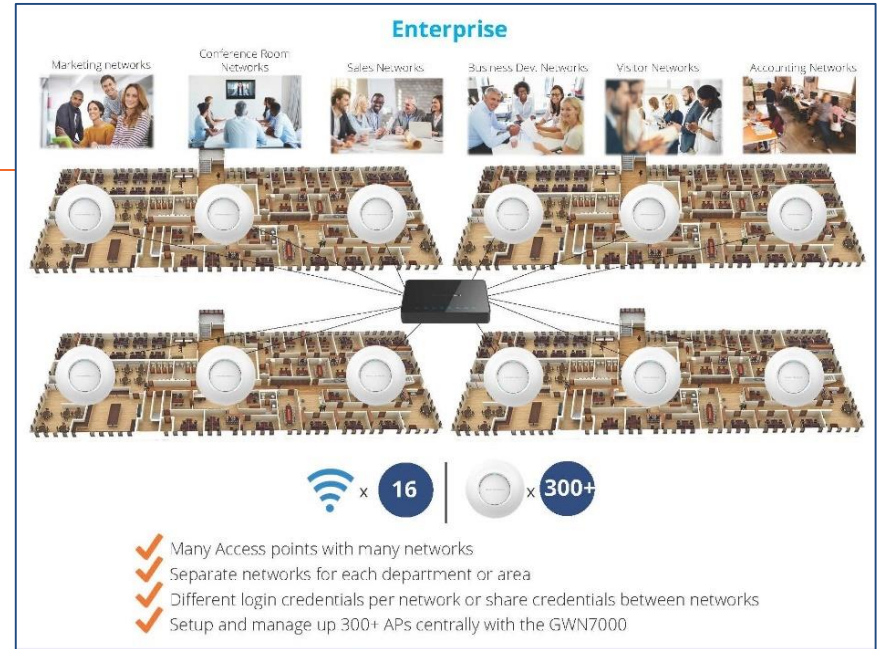

# Secure and Powerful Wireless Networks!

## Deployment Scenario (3)

- ✓ Many APs, many networks, different login credentials
- ✓ VPN connection allows sharing of networks and resources between multiple locations

## Deployment Scenario (2)

# Secure and Powerful Wireless Networks!

## GWN76XX Series Wireless Access Point

- Works with **Any third party router/switch** offers tremendous network throughput
- **Outstanding wireless coverage range**
- **Market-leading security features**

www.partnernet.g  
r

**Range:** 175 meters

**SSID:** 16 SSIDs per each

GWN7610

**Network Speeds:** Dual-band Wi-Fi with maximum throughput of

1,7GB

**Client Access:** Over 250 concurrent clients per GWN76XX.

**User Authentication:** Embedded captive portal

**Controller:** Embedded full network management capabilities without external controllers or single points of failure

## Allows to **fully utilize existing equipment** you have already invested in and **upgrade to an advanced IP solution!**

An **award-winning device** that allows users to add IP cameras to an analog network, add analog cameras to an IP network and to create a public address system

An IP video encoder and decoder that uniquely features a **built-in public announcement system** to offer a **3-in-1 combination device**.

**Decodes IP video streams** to analog video in order to allow IP cameras to be used on an analog network and **encodes analog video** to allow analog cameras to be used in an IP network.

**OnVIF compliant** and includes **built-in PoE**.

### **GXV 3500** Video Encoder / Decoder

> 1 channel video encoder or decoder > Rich peripheral interfaces > H.264 ONVIF compliant

## Powerful Security Alerts & Notifications

Integrate your **physical security** solution with your **communications** solution to **allow** the two to work together to keep your location safe and connected!

View live video feeds from your Video Door System and let in visitors with just the tap of a key on your IP phone!

Receive a voice or video call on IP phones from cameras when security events occur and make real-time voice or video calls to cameras from IP phones by registering all devices as SIP extensions on your IP PBX or hosted platform!

Cameras can also send email screenshots or upload recordings to an HTTP or FTP site when a security event occurs.

# Grandstream

- **Founded in 2002**
- **Over 600 employees**
- **Product Portfolio contains over 40 products: *Video Conferencing System, Audio Conference Phone, 17 different IP Phones, 5 ATAs, 10 IP Surveillance cameras, & 2 IP PBXs***
- **Primarily serving small-to-medium size businesses (SMBs) and consumer markets**

## Benefits of Our Solutions

- Easy-to-use
- Easy to Deploy
- Affordable
- Scalable
- Full Integrated Portfolio
- Low upfront system costs and no long-term equipment and service costs
- No Licence Fees or Other Hidden Fees

PartnerNET

SMART ICT DISTRIBUTION

a few words about PartnerNET

**PartnerNET**, for more than 20 years, is a value added distributor of **IP Telecommunications** products, **Video Conferencing Systems**, **Wireless and Wired Network Solutions** and **Network Security** products as well as **cloud back up software**, representing some of the largest smart ICT manufacturers worldwide.

PartnerNET's supreme solutions cover all the needs of small and large enterprises and organizations, offering solutions in physical, virtual and cloud environments.

**The company offers:**

- ✓ a full range of products
- ✓ tailor-made solutions
- ✓ continuous support
- ✓ continuous educational partner programs
- ✓ next business day delivery

complete  
business  
solutions
