Vicon Industries has been a leading manufacturer of video surveillance products for over 50 years.

Vicon is a publicly trade company on the US stock exchange

In October 2014, Vicon Industries merged with IQInvision.

Vicon systems and products are installed at Adobe Systems Inc. USA.

Our brand new representation

Various CCTV stand alone systems

Various access systems

Fire systems

SIP INTERCOMs

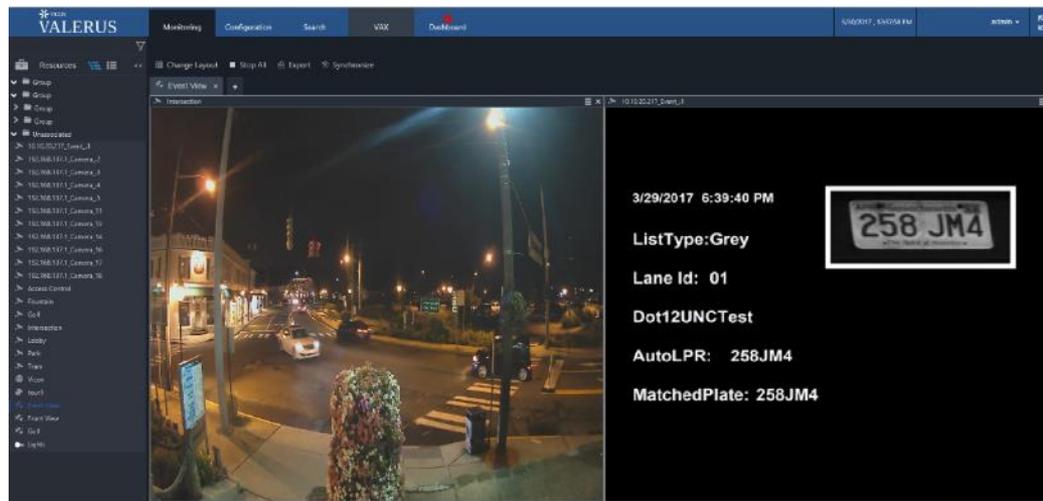

BMS & SCADA

All of them are running in different Monitor or in afferent tasks on a PC

Such kind of installations are not allowed us to be proactive

Our long time experience drive us to give solutions according to the customer needs

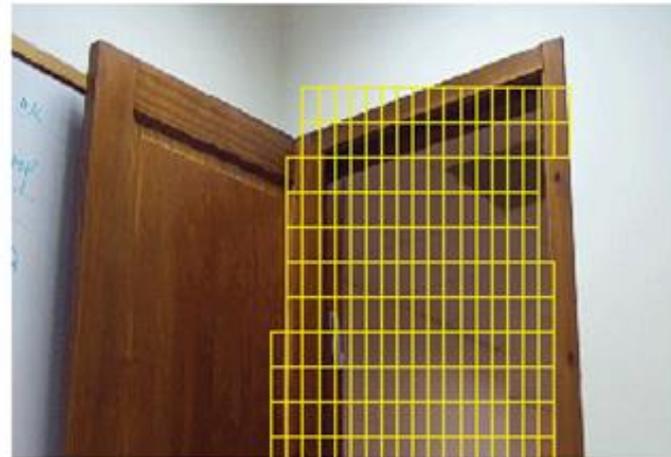

The most requested integrations are license plates, access control, and retail point of sale data. The existence of the SDK, is giving us the opportunity to be more specific & Unique

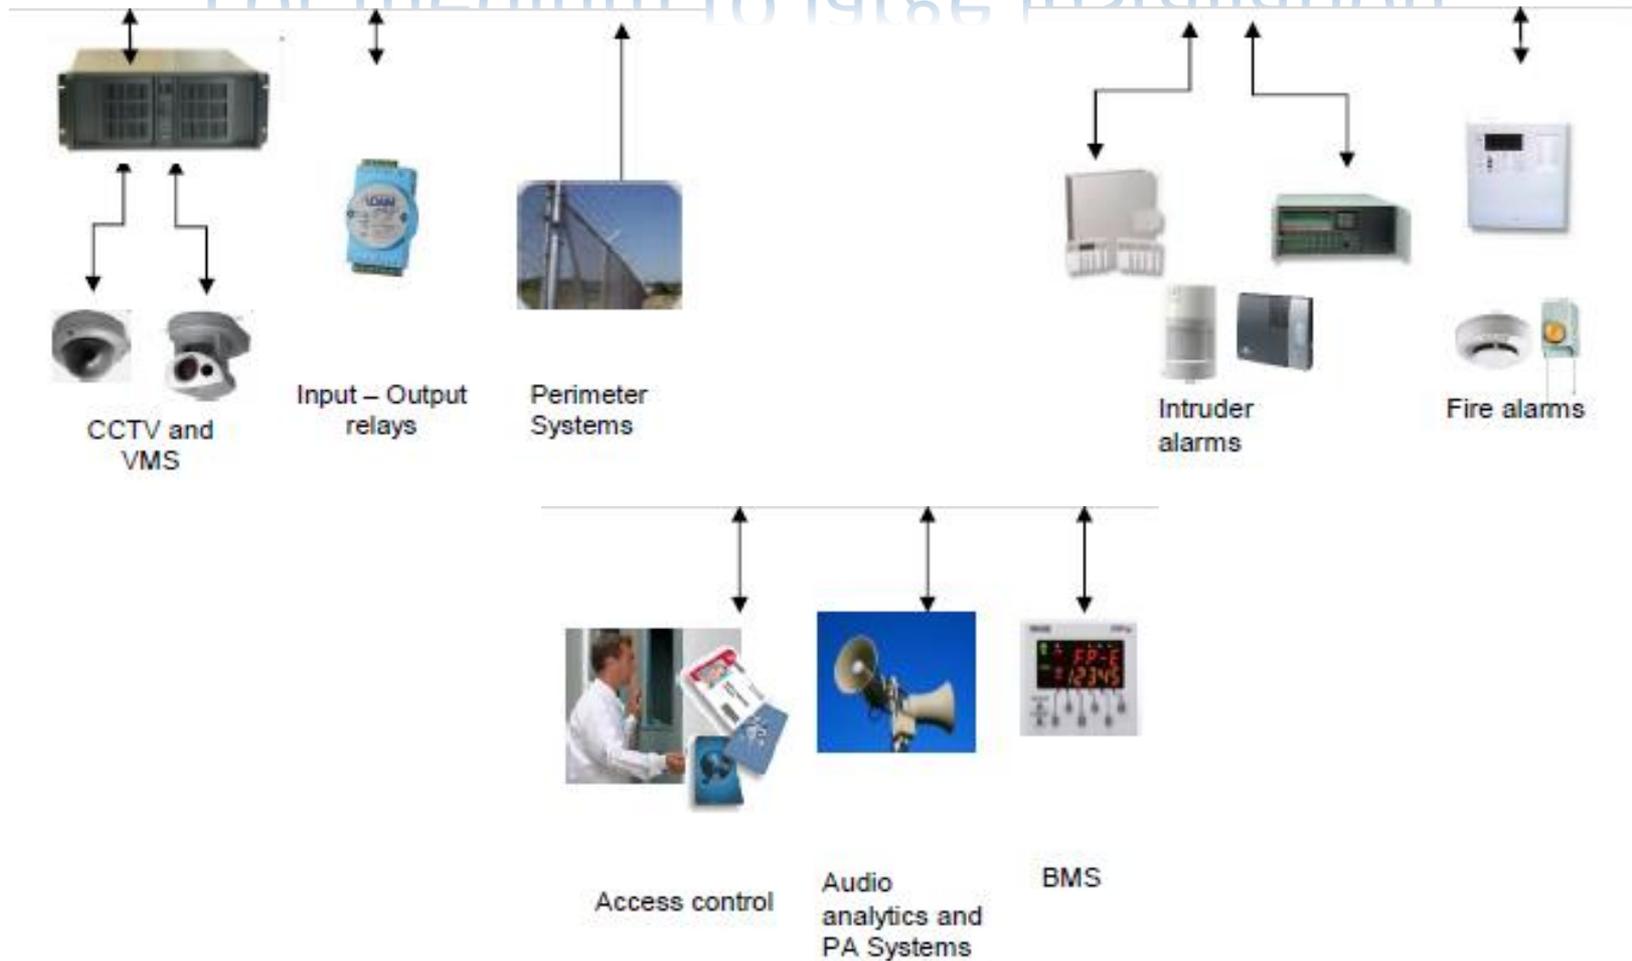

Video content analytics

Smart search

For medium to large installation

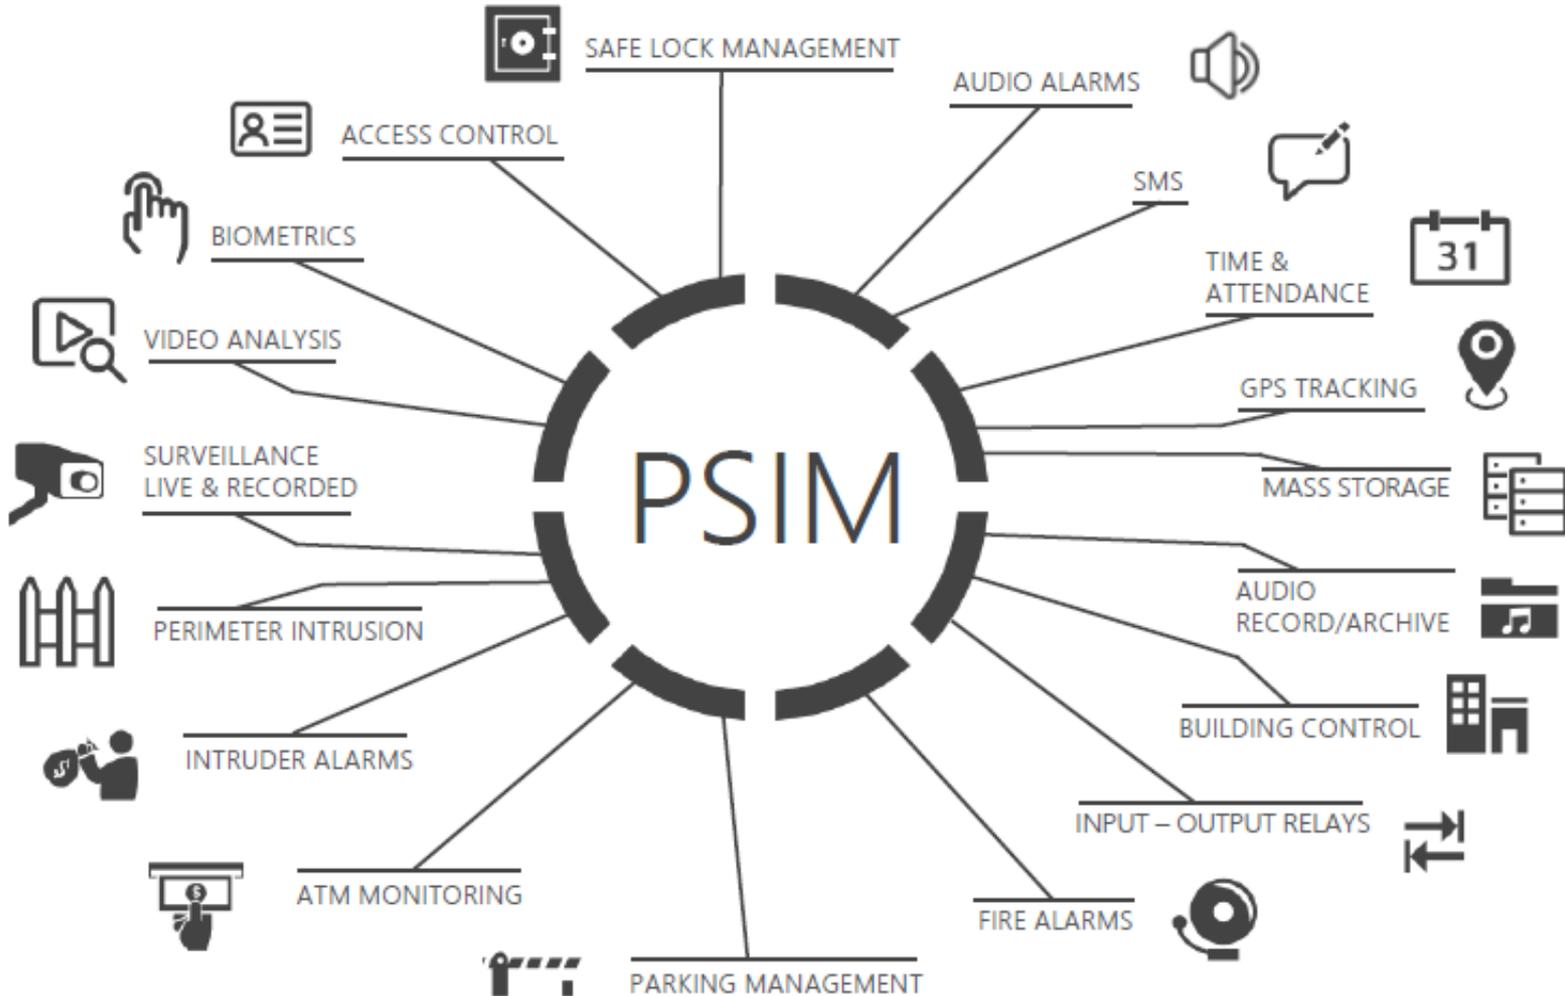

We have to create the appropriate infrastructures

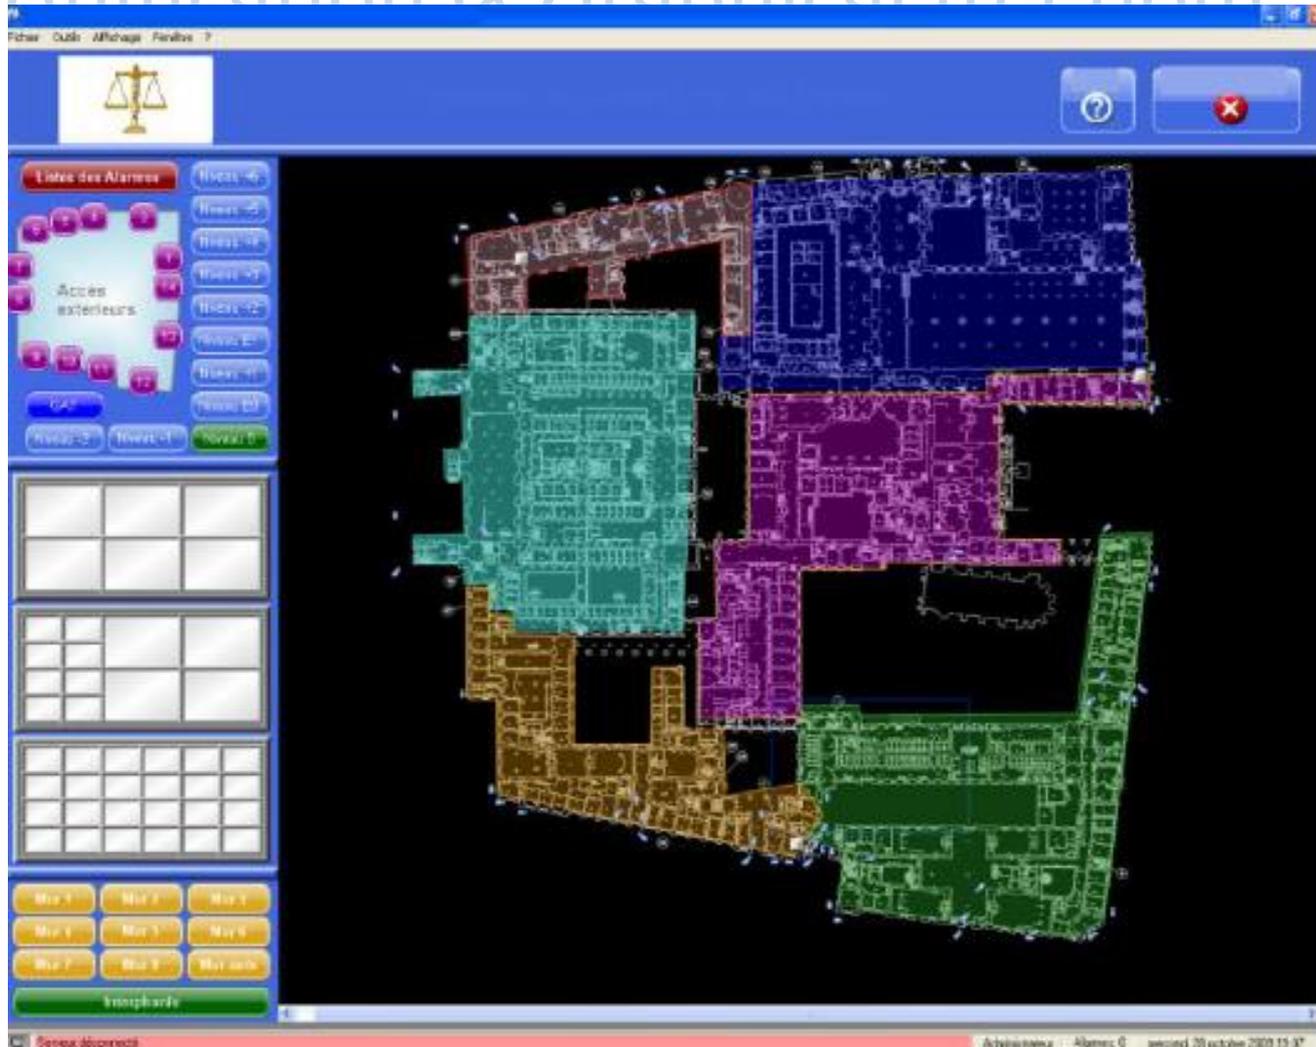

Unification of the services

UNIFICATION OF THE SERVICES

Unification & Graphical freedom
